The previous project was oriented more on a level of policy and the creation of a common understanding of the dynamics and guidelines for diversification. FISH MED NET, on the other hand, is more oriented towards a direct accompaniment to fishing companies to the diversification of activities.

PARTNERSHIP

The partnership of FISH MED NET is composed as follows:

- Legacoop Agroalimentare, **Italy**

PRODUCT TEMPORARY MANAGER CALL

The project is co-funded by the ENI CBC MED Programme, which promotes co-development between European and non-European Mediterranean countries. Therefore - despite being a development cooperation intervention - it allows to pursue positive impacts also for European territories.

The call for the Product Temporary Manager (PTM) is intended to cover the services in all three regions where the project is focused in Liguria, Sardinia and Apulia. In general, the PTM will provide support to selected enterprises by delivering clear guidelines in order to support their business activities, as well as, other MSMEs in the fisheries sector under the four selected business model:

1. Tourism,
2. Aquaculture,
3. Food sector, and
4. Services to community.

As part of their initial engagement, the PTM/s will conduct an assessment of the various structures available in the three regions involved in the project in Italy and deliver the necessary justification in writing explaining how the selection criteria was elaborated.

As an outcome of the PTM services, a report will be elaborated, in which a series of recommendations, under the form of a detailed guide will provide the necessary measures that can be adopted by each structure to increase their overall marketing potential. Based on the product, or service of interest chosen by the structures¹, the Temporary Manager/s will produce a report to be delivered back to them at the end of their services.

Final reports must be delivered to Legacoop Agroalimentare no later than 28th of February 2022.
