

THE PROJECT AT A GLANCE

CLUSTER tackles **social exclusion and poverty amongst vulnerable groups** by capitalising on results of other projects and equipping **young people and women** who are Not in Education, Employment, or Training (**NEETs**) with marketable skills in the **blue, circular, green economy and sustainable agriculture sectors**.

It leads to the strengthening of partnerships between Technical and Vocational Education and Training (TVET) institutions, the private sector and social economy actors, and supports policy-makers in the design of **inclusive employment policies**.

CLUSTER receives financial support from ENI CBC Med programme supporting cross-border cooperation projects for a more competitive, innovative, inclusive and sustainable Mediterranean area.

CLUSTER AND THE UNITED NATIONS SUSTAINABLE DEVELOPMENT GOALS (UN SDGs) 2030

CLUSTER intersects and pours directly and indirectly into the 2030 Agenda for Sustainable Development adopted by the UN, with the following SDGs:

No poverty

Gender equality

Decent work and economic growth

Responsible consumption and production

Climate action

Life on land

→ **Discover how to be part of the social change, become a CLUSTER trainer!**

Through a well-defined Training Programme specifically designed for NEETs, CLUSTER aims at involving technical and vocational trainers in a comprehensive win-win approach.

The Technical and vocational education and training (TVET) catalogue will help you understand how.

CLUSTER NETS TRAINING PROGRAMME: HOW DOES IT WORK?

1. On-line trainings

- Through CLUSTER's e-learning platform
- Covers the 4 targeted sectors (beginner level) and encompasses basic Soft Skills learning
- 36 hours for each sector
- 36 hours of advanced Soft Skills learning
- Asynchronous self-paced learning

2. On-site advanced level trainings

- 25 hours hands-on and practical trainings with field visits
- Given by experienced trainers on the sector-oriented topics
- Enables learners to acquire professional and industry skills allowing them to enter the workforce

3. Corporate Social Responsibility (CSR) mentoring

- Offered in parallel with the on-site trainings
- Guides mentees to strengthen their CSR skills and develop their own CSR initiative
- Provided by professional trainers in 2 collective sessions
- Private sector representatives share their own CSR experience

4. Internships

Finally, the learners will join the companies for (up to) 3-month paid internships!

- Supervised and paid through the project
- Aims to strengthen learners' working life skills
- Under the supervision of the project team for the internship management process, and the trainers for the technical aspects

WHY BECOME PART OF OUR TRAINING PROGRAMME?

CLUSTER is a bridge between TVET institutions and the Private Sector

Vocational trainers from TVET institutions will be invited to visit businesses operating in the four sustainable economic sectors, to better understand the sectors' needs and accordingly develop their own capacities and training methods in this respect.

In the same vein, vocational trainers within businesses will be invited to visit TVET institutions, with the objective to upscale their pedagogical skills.

CLUSTER offers an innovative approach thanks to the CLUSTER E-learning Platform:

This digital platform uses a blended training methodology combining self-paced, recorded and asynchronous learning, offering:

- Training modules in 5 languages (Arabic, French, Greek, Italian and Spanish)
- A complete learning experience that is fun, interactive, and ultimately engaging
- Easy access to trainings for different age groups in other geographical areas, with flexibility for learners to commit in their free time
- Innovative learning tools and methodologies supported by new technologies
- The possibility to submit learners' applications and assignments and to generate certificates for online training completion
