

# How to make your training programme effective

Best practices from the CLUSTER project experience

## E-learning platform: the advantages of remote learning

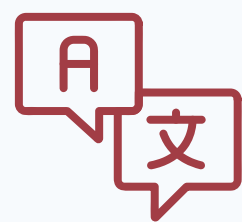

Cost savings

Increased access

Flexibility

Improved communication

Enhanced learning

## A bottom-up approach for a tailor-made design

Access to local context and resources

Participants apply their learning  
in the workplace

Easy tracking of participant progress

Assessing the impact of the training

Informing future iterations

Ensuring that the programme  
adapts to local needs

## Assessing needs to respond exactly

→ Enables customized learning design

→ Improves programme efficiency

→ Encourages participation

→ Saves time and resources

→ Enhances learning outcomes
