

BOOKLET OF CONTACTS

Organic agriculture operators from the Mediterranean

What is on this booklet?

On this booklet you will find the **contact info and description of:**

- **The organic operators involved in the project** in Jordan, Lebanon, Italy and Greece.
- **The partners** that composed the **ORGANIC ECOSYSTEM's consortium.**

CONNECTING THE MEDITERRANEAN WITH THE WORLD OF ORGANIC AGRICULTURE

Tamam Foods

Tamam Foods Company was founded in Jordan in 1998.

Today, its annual production exceeds 12 million broilers, and it owns 2 breeders farms producing about 5 million chicks/year. Tamam Brand has gained the solid position in the Jordanian market as the producer of the highest quality poultry meat.

- 100% Grain Fed: In 2002 the company was the first to eliminate the use of animal by-products, converting to 100% Grain Feed.
- Certified Humane: In 2018 Tamam declared all its farms to be antibiotic free and was the first to achieve "Certified Humane" certification from Humane Farm Animal Care (HFAC) in the U.S., asserting that all its birds are raised and handled according to strict humane standards.
- Organic: In 2020 the company managed to start its first Organic broiler farm to be the first Broiler Organic meat producer in Jordan In 2020, Tamam became the first certified Organic poultry producer in Jordan, after its free-range, GMO-free farm was received EU-Organic Certification.
- Air-Chilled: The company's slaughterhouse, a modern and automated facility, is the only one in Jordan that Air Chills the birds without passing them through water chillers.

Good Food Mood Company

At Good Food Mood, we are proud to be a leading provider of high-quality fruits and trees. Established in 2014 in the northern region of Jordan, we are committed to utilizing the latest technologies and safe practices in agriculture.

This has allowed us to cultivate top-notch fruit that is well-suited to our local environment. We have a niche market of organic products (Organic Medjool dates and Extra virgin Olive Oil being our top crops), and international coverage of global countries and continents. With an exporting rate of almost 900-1000 tons/year of Organic Medjool dates and current production of 100-150 tons of Extra virgin olive oil per year. We consider ourselves to be a leading player and in a unique position not to compete but to dominate the organic food industry in general.

Taybeh Organic Farms

The farm is fully committed to the cultivation and production of organic fruits, employing regenerative agriculture practices.

Initially encompassing a diverse array of citrus fruits, dates, and avocados, it has now set its sights on further diversification by incorporating an enriching assortment of tropical and subtropical fruits into its repertoire. This strategic move towards expansion not only aligns with the principles of sustainable farming and environmental rejuvenation but also presents new opportunities to cater to evolving market demands while adhering steadfastly to their commitment to fostering ecological balance through responsible agricultural practices.

Alwer Farms

Alwer Farms is a prominent agricultural enterprise deeply rooted in tradition and committed to delivering exceptional quality produce. With a legacy spanning four generations, our family-owned farm in Jordan has been cultivating premium crops since 1919.

At Alwer Farms, our primary business activities revolve around cultivating and supplying a diverse range of high-quality agricultural products. Our fertile lands in Mafrak, Jordan, allow us to grow an assortment of stone fruits, grape varieties, pomegranates, persimmons, olives and more. We meticulously nurture our crops using sustainable practices and leverage advanced technologies to optimize productivity while maintaining the utmost respect for the environment. Additionally, we own and operate a privately owned olive presser, where we extract and produce premium olive oil. Our products are carefully harvested, processed, and delivered to customers, ensuring freshness, quality, and an unparalleled farm-to-table experience.

Samain Ideal Olive Oil Mil & Farms

The Samain Farm was established in 1985 and the mill in 1994. It is located in Karak government. The farm has around 2300 olive trees, with different types including Nabali Improved, Nabali, frontoio and Souri. It is divided into 6 groves. In 2011 the farm was turned to organic production and was fully certified in year 2014. We begin Harvesting in the first week of October of every year and takes about 3 weeks to be done.

We process the olive, and we collect on daily basis. The olive trees in the farm are considered rainfed and supplemental irrigations during the summer. We offer premium Organic Extra Virgin Olive Oil. Our mission is to produce and sell the highest-quality, organic, extra virgin olive. We seek to do so, ethically and sustainably.

Agro Cedrus SARL

Agrocedrus is a small Lebanese enterprise rooted in Menjez, Akkar. After more than 50 years, we decided to benefit from the unused lands of our family and chose to plant them with 2000 endemic carob trees.

The harvest and production increased, we built an enterprise and a certified organic factory with a large process unit to produce organic carob molasses from our carobs and the carobs of 146 farmers from the region of Akkar. Agro Cedrus activities cover the full supply chain of carob from farming to harvesting, processing, packaging, storage, quality control, marketing, retail and distribution, traceability and product development.

We are working to develop new innovative healthy, sustainable organic carob-based products such as Carob Locust Beam Gum, carob sugar, carob butter, carob vinegar, carob candies, carop sirop and liquor Carob trees have ecological benefits, they aid soil and water conservations efforts.

GOLDEN TREE

GOLDEN TREE belongs to a small, selected group of early harvest Greek olive oils certified as PDO AGOURELEO CHALKIDIKIS (Protected Designation of Origin).

The unique Agouroleo that is designated PDO throughout Greece, (olive oil of early harvest), stands out for its golden-green color, its very low acidity (from 0.2 to 0.4), the intense aroma of the fresh olive tree, the fresh cut grass and its intense fruity taste.

It has a pleasant bitterness and a spicy aftertaste that reveal its high antioxidant content. This means that it is carefully produced from the particularly healthy, large, wild ones (green) olives of Halkidiki.

BIOTRICHONIS

The BIOCULTURAL ENVIRONMENTAL SOCIETY OF TRICHONIDOS with the distinctive title 'BIOTRICHONIS' has as its main purpose the promotion and development of organic agriculture and animal husbandry in the area of Trichonida, in the newly expanded Municipality of Agrinio and in general in the P.E. Etoloakarnania, as well as the protection of agricultural ecosystems with the method of organic farming.

Within the framework of 'BIOTRICHONIS', an independent producer called Tseltsse Eleftheria has a big farm of aromatic plants in the area of Trichonida. Her cultivating practices follow the Agro-dynamic Management that can be applied to an olive grove in order to activate all known interactions between olive trees and other biological organisms of the agricultural system with the aim of capitalizing on renewable sources to cover the needs of olive trees in nutrients and dealing with competitive species that reduce yield.

AZ AGR STEFANO MARIA PIRRO - CANTINE PIRR

The "Cantine Pirro" brand tells of a story made of passion, stubbornness, desire to grow and obtain results, in a land that is both harsh and sweet.

In 2008 Stefano Maria Pirro, lover and connoisseur of good wine and his land, supported by his wife Enza and his daughter Grazia, began to make wine with the grapes of his own estates, the "Nero di Troia", a native vine of northern Puglia which also takes its name from its high polyphenolic content which gives it an intense ruby red color that seems "black". The flagship of its productions is "Epiro Bianco", obtained by vinifying white "Red Berry" grapes. The activity started by Stefano Maria Pirro, a brilliant young man, thanks to his strong entrepreneurial skills has now become a prestigious reality in the creation of an "organic" product of excellence, a perfect combination of flavors and culture of an ancient land.

ARIANO
Terra & Famiglia

Ariano Terra & Famiglia

The Ariano Winery is located between San Severo and Torremaggiore in an agricultural landscape representative of the typical colors and smells of the Gargano peninsula and the Puglia Table. The historical farm was inherited by Attilio Ariano and has been run using organic agricultural methods since 1997. A new modern production building that utilizes solar power was built in 2005. The Ariano Winery is located between San Severo and Torremaggiore in an agricultural landscape representative of the typical colors and smells of the Gargano peninsula and the Puglia Table. The Gargano peninsula is a piece of paradise with a mosaic of different and fascinating panoramas. Along the coastline, there are narrow bays, sandy and gravel beaches, sea stacks, overhanging sea cliffs, sea caves, and secret ravines and coves where you can dive! Inland, the true green heart of the Gargano National Park is the Umbrian Forest where the sun has a hard time penetrating the forest and the landscape is like a fairytale.
