

CALL FOR CAPITALISATION PROJECTS

# #ONEMED

MAKING RESULTS AND KNOWLEDGE AVAILABLE  
ACROSS THE **MEDITERRANEAN** REGION

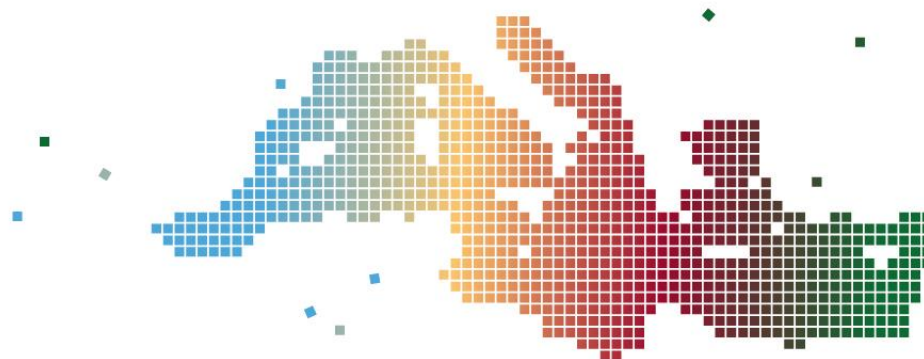

Programme funded by the  
EUROPEAN UNION

REGIONE AUTÒNOMA DE SARDIGNA  
REGIONE AUTONOMA DELLA SARDEGNA

## A breakthrough in the history of Cross-Border Cooperation

*The first generation of projects ever to  
integrate the results of several EU programmes  
and initiatives*

When somebody was talking about Capitalization 15 years ago...

Let's be honest! Not many of us were first believers!

...but we're smart and we quickly adapted...

We read, we listened  
and finally we  
understood:  
capitalization was the  
key to success and  
impact

...the ENPI CBC MED 2007-2013 Programme started working hard on a specific capitalization approach to...

Enhance, exchange and diffuse the **achievements** of the Programme

- At programme level
- At project level
- In synergy with other Programmes/Initiatives

## 4 pioneer ENPI CBC MED thematic clusters were created...

1. Supporting **economic growth** and **territorial development**
2. Enhancing **cultural heritage** and **sustainable tourism**
3. Investing in **human capital**
4. Contributing to **environmental sustainability challenges**

**Good practices emerged from the clusters and fed the elaboration of the ENI CBC MED Programme 2014-2020!!!**

...from ENPI CBC MED to ENI CBC MED we lost the “P” but we gained a new and strong capitalization strategy...

- Capitalization is in the core **strategy of the Programme**
- A **specific call** for capitalization projects!
- A capitalization process evolving **inwards** (ENPI & ENI projects) and **outwards** (synergies with other Programmes and Initiatives)

...a call for Capitalization launched in 2020, we're so proud of...

Union for the Mediterranean  
Union pour la Méditerranée  
الاتحاد من أجل المتوسط

Establishing actual and tangible synergies with our fellow partners from the UfM, the MED programme, PRIMA and many others.

Full integration from the definition of the call to the project implementation

and nothing can't stop us now...as INTEREG NEXT MED 2021-2027...

will give synergies and capitalization **more importance than ever!**

Synergy won't be a trendy word anymore but an actual priority of our programme's every day's business
