About NEX-LABS

With an international partnership spanning over Spain, Tunisia, Jordan, Lebanon, Italy, Egypt and Cyprus, the [NEX-LABS project](#) aims to support the implementation of clean technologies for sustainable and resilient growth of agri-food sector production based on a more efficient use of energy (renewable/solar solutions) and water (wastewater treatment, water harvesting or reuse solutions) in Mediterranean Partner Countries region thanks to the contribution of ICT technologies such as blockchain, Internet or the Things (IoT), Artificial Intelligence (AI), Machine Learning and Big Data.
