Is your organization interested in increasing the employability of young people in the sports sector?

Are you between 17 - 30 years old and unemployed?

Are you interested in employment in the sports industry?

If your answer in at least one of the above questions is **yes**, then you should definitely join and follow **Skills4Sports project!**

## Skills4Sports is an innovative, youthful, inclusive and participatory project

The Mediterranean region faces high youth unemployment while, prominent sectors, like the sports industry, face challenges finding the right skills for their rising needs. The Skills4Sports project takes advantage of this need and aims to increase the employability of Not in Employment, Education or Training (NEETs) in the Mediterranean area by training new professionals for the sports and e-Sports sector, reducing the mismatch of skills and involving the main stakeholders interested in the process.

Skills4Sports project aims to:

- 🌐 Increase the employability of NEETs in the prominent sports sector by providing training opportunities in a variety of sports-related fields
- 🌐 Create a support network for the development of sports professionals, involving the regional stakeholders, to promote good practices and innovative policies for NEETs employment.

**1200** NEETs to be trained in professional skills for sport industry

**240** days of training in new skills that meet the needs of the labour market of the sports sector

**9** new curricula for sports professionals in sports-related professions, both athletics-related and business-oriented

**60** sports industry employers and stakeholders involved

**1** Strategic Alliance "Skills4Sports" for key sport stakeholders reducing the skills' mismatch and offering new job opportunities to NEETS

**3** electronic tools for e-learning addressed to youth, including a digital educational platform and applications

**200** new jobs for NEETs

**Numerous Public Authorities, NGOs and social organisations**
