13:45-14:45 Transferability plan
14:45-15:00 Conclusions and next steps

Partners:

Co-Evolve4BG

Participatory Workshop 1

In the first workshop there will be a brief presentation of the SWOT analysis for the area and the toolkit. These results will be discussed and the threats and opportunities for the area of Alexandroupolis and Samothrace will be identified. The main axes of the discussion will be infrastructure, natural resources, natural and cultural heritage, etc.

Participatory Workshop 2

You are invited to propose actions regarding the objectives of the Co-Evolve4BG project and in particular, you will participate in actions and discussions in order to formulate an action plan in relation to the protection of the area from coastal erosion and environmental pollution in combination with the increase of sustainable tourism as an integral part of blue growth. Particularly:

- Formation of an action plan for the area of Alexandroupoli and Samothraki
- Identification of the possible stakeholders, targets for the implementation of the actions
- Prioritisation of those actions
- Possible ways of disseminating and transferring knowledge to other areas of the Mediterranean.

The Intervention Area
