**AIM AND POTENTIAL:** The aim of this platform is to improve stakeholders skills of energy efficiency plans for public buildings in the context of their surrounding neighborhood. Two pilot training courses are available on the CESBA e-learning platform, with free access to any interested individual or organisation from the MED area. These training courses are a way to transfer the knowledge acquired from the testing phase of the project.

**TYPE:** e-learning

**CATEGORY:** Involvement and training

**STAKEHOLDERS:** Local public authorities

**SCOPE:** Neighborhood

**LEVEL OF REPLICABILITY:** Medium

**AVAILABLE LANGUAGES:** English, Italian, Spanish, French, Greek and Croatian

**SUCCESSFUL CASES AND CONSTRAINTS:** The platform has been successfully tested in: Austria, Croatia, France, Greece, Italy, Malta, and Spain. All training material is available in English and in other 5 languages (Italian, Spanish, French, Greek, Croatian).
